

# **Living Green Procedures**

## **“Low Impact Development”**

Background – Living Green Low Impact Development (LID) is a voluntary program established by the City of Broken Arrow to promote a more efficient use of the land that reduces overall impact to the environment.

Procedure – The procedure for the Living Green LID program is as follows:

1. Applicant fills out an application and submits the application, plans and fees to the Development Services Department.
2. Development Services staff will process the application and review the plans for compliance with the Living Green LID Criteria Manual and LID areas.
3. The points awarded are all or none and will be determined for each area as described on the checklist/application.
4. Staff will assign the points and LID Level.
5. The applicant will be notified of the point total and LID Level Certification (Platinum, Gold, Silver or Bronze).
6. The application and plans will be processed, stamped and one (1) copy will be given back to the applicant.
7. A certificate and placard will be provided to the applicant, with the stamped plans at the time of acceptance by the City.
8. Information will be posted on the City website, Focus flyer and on the City’s television station.
