The plant processed approximately 930.01 million gallons of wastewater during the quarter with an approximate average daily flow of 10.11 million gallons per day. 6.50 inches of rainfall occurred during the quarter. The historical average for this quarter is 13.69 inches. 98.6% of TSS and 98.4% of BOD were removed in the treatment process from February 1, 2014 through April 30, 2014. This quarter 3,799,000 gallons of sludge were hauled to the Southside facility.

ODEQ report: March 9-10, 2014 – WET Testing for quarter March 1- May 31 passed. ODEQ Quarterly Inspection conducted on March 24, 2014, no issues noted. ODEQ was informed of a sewage overflow in Haikey Creek Park following a heavy rainfall event on June 2, 2014. All four pumps were in service but overwhelmed by peak inflow and infiltration. Tulsa and Broken Arrow need to pursue aggressive collection system rehabilitation and continue with plan to upsize existing force main, providing 10 mgd additional capacity.

June 6, 2014

Location:

Broken Arrow Engineering Offices

Attendees:

Roger Hughes Anthony Daniel Bob Shelton Josh Fisher Tom Hendrix Joan Arthur Matt Vaughan

- 1. May 1, 2014 meeting minutes submitted for approval. Approved as written.
- 2. Plant Operations (Kevin Derrick)
 - Process Summary
 - > TSS Removal: 98.2%
 - ➤ BOD5 Removal: **98.7%**
 - Ammonia Removal: 96.3%
 - ➤ Sludge hauled to SS: 1.24 MG
 - Average solids concentration hauled: 4.5%
 - > Average monthly flow: 10.25 MGD
 - ➤ RDT solids: 6.73%
 - ODEQ
 - > 6.2.14 Haikey Creek Lift Station Overflow
 - 1. Approximately 200,000 gallons spilled.
 - 2. DEQ notified by phone and by letter.
 - 3. Recommend proceeding with construction of force main following completion of design and easement acquisition.
 - 4. MV handed out graph of BA and Tulsa Flow meters.
- 3. Aeration Basin Repairs (Josh Fisher)
 - 2G is out of service due to broken shaft
 - 1A out of service due to electrical problem
- 4. FY '12/'13 Capital Improvements, Construction (Andy Lankford)
 - WPC 13-1, Walters Morgan, \$403,000
 - Work is complete, waiting on one O&M manual.
- 5. FY '13/'14 Capital Improvements, Design (Matt Vaughan)
 - Budgeted amount: \$736,159

- Opened bids on Friday, 3.21.14. Crossland was low bidder with a bid of \$460,500.
- 6. Haikey Creek Lift Station Screening Improvements, Design (Britt Vance):
 - Final design will be based on ½" screen with spray water (no brushes).
 - Final check set has been reviewed by the group. Mylar submittal is pending.
 - Jon Nelson investigating material differences between HydroDyne and Parkson screen. Preference is for stainless steel elements.
 - Construction cost is \$4,332,738 without alternatives and \$5,199,718 with alts.
 - Project should advertise in July or August.
- 7. Haikey Creek Lift Station Force Main, Design (Britt Vance):
 - Amendment is on the June 11th RMUA Agenda.
 - Will need to keep original schedule for construction due to overflow in park.
- 8. Haikey Creek Activated Sludge Train Rehabilitation, Design (Britt Vance):
 - Final report to be presented to RMUA on June 11th.
 - Anthony asked to defer construction of the diffused aeration improvements in order to allow BA to focus funding on I&I rehab projects. Matt expressed concern with deferring project, especially given the likelihood that Bixby will divert an additional 1.5 mgd to Haikey Creek within the next two years. Current average flows are approximately 10 mgd, and operations experience and CH2M Hill modeling suggests that the plant (especially the final clarifiers) become stressed at 12.5 mgd. If the plant is allowed to operate under stressed conditions, then the reduced water quality could significantly reduce the effectiveness of the new UV disinfection process.
- 9. FEB Expansion, Design (Britt Vance):
 - Agreement is on the June 11th RMUA agenda.
- 10. Disinfection Improvements, Design (Britt Vance):
 - Design is 60% complete and review meeting is scheduled for June 10th.
 - Estimated construction cost is \$4,154,000.
 - Advertisement is scheduled for August.
 - The cost estimate is greater than the budgeted amount. The plan is to use residual funds from the Act Sludge Interim Repair project.
 - ODEQ called Matt Vaughan and said that they will have to issue a consent order or NOV because the RMUA has failed to meet the OPDES compliance schedule for the UV project. Matt Vaughan assured ODEQ that the RMUA is working diligently to complete the design and fund the project. It is anticipated that the project will be complete within 8 months of the required time.

• Bixby Connection: Jared called MV and said that he would not be able to attend this meeting and reported that he had no update to report. He expects his engineering consultant to finish making recommendations within the next two months.

12. Other Items:

- RMUA Agenda Review
- Next Meeting: Next meeting date and time to be determined. Will likely be rescheduled due to Fourth of July holiday.

Utilities Department Post Office Box 610 Broken Arrow, Oklahoma 74013

Mayor Craig Thurmond, RMUA Board, Chairperson

Regional Metropolitan Utility Authority

From: Lauren Wilson, City of Broken Arrow, Pretreatment Coordinator

Subject: June 2014 through August 2014 RMUA Quarterly Pretreatment Report

Dear Mayor Thurmond,

The following is a brief synopsis of the major activities of the Broken Arrow Industrial Pretreatment Program for, June 2014 - August 2014. This update is in regards to pretreatment issues and industrial wastewater discharges pertaining to the R.M.U.A.'s Haikey Creek WWTP.

All Significant Industrial Users (SIU) in the Haikey Creek Wastewater Treatment Plant Basin are in compliance with City of Broken Arrow/City of Tulsa Pretreatment regulations as listed in the City of Broken Arrow/City of Tulsa Discharge Permits and City Ordinance.

City of Broken Arrow staff performed the yearly site inspection and facility sample at Unifirst on August 25, 2014. No violations were noted. City of Tulsa staff sampled St. Francis South and Southwestern Regional Medical Center in June and again in August. Mandatory compliance monitoring reports were received from CSI Aerospace, Unifirst, and Southwestern Regional Medical Center. Reports were received by the due dates, and samples were in compliance with permit requirements. Surcharges for Bio-chemical Oxygen Demand (BOD), Total Suspended Solids (TSS), and Oil & Grease above residential thresholds were issued to Unifirst in June for \$1,180.75; in July for \$4,035.07; and in August for \$3,063.35.

City of Broken Arrow pretreatment staff continues to make good progress on Fats, Oil & Grease (FOG) management. Food Handling Establishment (FHE) compliance inspections are being conducted weekly. Contacts have been made with several grease haulers that do business in Broken Arrow, and we are receiving FHE grease interceptor maintenance information more easily. The City of Broken Arrow and Broken Arrow Public Schools are in the planning process for a "Grease is the Word" coloring contest for second graders in Broken Arrow Public Schools. The contest will consist of a one page poster distributed to the second grade students, by their teachers, asking them to enter a grease can decorating contest. The poster will have the rules and guidelines of the contest, as well as a blank space that can be decorated and cut out to tape onto a coffee can. All decorated grease cans will be displayed in the schools lobby or library judged by City of Broken Arrow staff. Contest winners will be published in the FOCUS with their can. I will provide you more information about this contest when the details have been finalized.

Thank you for your continued support of the City of Broken Arrow/RMUA industrial pretreatment program. Should you have any questions or concerns please do not hesitate to contact me at the Broken Arrow Lynn Lane WWTP office.

Sincerely,

Lauren Wilson Pretreatment Coordinator City of Broken Arrow
